

Beth Tfiloh Dahan Community School

August, 2011

Dear Tenth Grade Parents and Students,

I trust that you are having a summer filled with fun, friends and fantastic adventures. I also hope that you are looking forward to a school year that will provide academic challenges and fulfilling social experiences.

As you may know, the role of the grade coordinator is to help the students grow academically, socially and emotionally during the school year. I hope to meet with the students throughout the year on an individual basis, as well as work to keep parents informed of all issues pertaining to their children. In addition, I will be working hard to create programs that will address the unique issues confronting tenth graders. As part of the administrative team, I will be in the unique position of focusing on the grade as a whole, as well as on the needs of each student.

Tenth grade students must complete 30 hours of community service. We encourage students to have a wide range of experiences. To that end, the 30 hours of community service must come from at least two community service projects. You may also count 20 additional hours towards your eleventh grade community service requirement. Please consider using the rest of the summer to complete this important obligation.

I encourage parents and students to call me with any questions or concerns that may come up at any point during the school year. I look forward to getting to know each of you.

Sincerely,

David Green
10th Grade Coordinator
