

Beth Tfiloh Dahan Community School

August, 2010

Dear Parent(s),

It is my pleasure to assist you and your child in my role as Director of Technology at Beth Tfiloh Dahan Community School. We constantly strive to provide the best possible service and support for the students at Beth Tfiloh, and the information contained in this letter will help us to do so.

We'd like you to know that High School students are NOT required to purchase or use a laptop at school. We do however provide limited support to students that use a laptop in school.

As part of this support, we provide a wireless guest network for our students. This broadcast network is separate from our internal network and provides internet access only. Access to this network is available to anyone that registers their laptop in our Technology Center. We do require that active antivirus software is present on the device before authorizing access as a precaution to our other guests.

Please feel free to call with any questions or concerns.

Sincerely,

Mark Kaiser
Director of Technology
